

**Sagarmatha Choudhary Eye Hospital**

# COMPREHENSIVE PHACO TRAINING IN NEPAL

You need more surgical phaco practice?  
Get trained with the best Oertli equipment at the Sagarmatha Choudhary Eye Hospital in Lahan, Nepal. The training is supervised by senior instructors who support you during at least a four weeks training. The comprehensive training also includes pre-operative work-up and post-operative care of patients. You will get more routine in phaco surgeries, develop further surgical skills and support the charity against blindness.

**About the Sagarmatha  
Choudhary Eye Hospital**

Dr. Albrecht Hennig has started in 1983 with the support of Christoffel Blindenmission and Nepal Netra Jyoti Sangh eye care services in the village of Lahan in South-East Nepal. Meanwhile this hospital has grown to one of the world's largest eye treatment centres with 450 beds and 7 satellite clinics, providing high quality eye services at an affordable cost to a huge population in Eastern Nepal and Northern India.

Together with its partner Eye Hospital in Biratnagar, which was started in 2006, more than 115,000 eye surgeries are performed annually. Oertli is a proud partner of the hospital and supports the charity collaboration since 2012.

## Training Content

The courses have at least a duration of four weeks. The teaching is on a highly individual basis with a permanent supervision. A very high number of surgeries can be done within this short time. The skills of each individual surgeon, no matter if it is a beginner or refresher, will be developed further.

- First week: observing phaco and performing capsulorhexis
- Second week: phaco step by step under supervision
- Third and fourth week: independent surgery

## Training Requirements

Qualified practicing Ophthalmologist with MD/DO/FRAS/DNB degree from recognized university. The applicant must be proficient in Capsulorhexis. The Sagarmatha Choudhary Eye Hospital decides about accepting or rejecting of applicants.

## Contribution

With prior notice of around two months, the training can be arranged at virtually any time of the year. The costs are CHF 100.00 per day. Travel, transportation and accommodation need to be organised and paid by the candidate.

## Travel

International flights are approaching Khatmandu and domestic flights will bring you to the local airport Janakpur or Biratnagar. Driving to the hospital in Lahan takes around two hours. A pick up can be provided from the hospital against additional payment.

## Accommodation

A simple, clean accommodation in the guest house directly on the hospital campus as well as meals in the hospital canteen can be provided for reasonable rates. International hotel facilities are not available.

For more information about the hospital visit [www.erec-p.org](http://www.erec-p.org)

## Application

Please send your CV, copies of certificates and a short description of your interest to Mr. Alexander Haering, Head of Sales International, [alexander.haering@oertli-instruments.com](mailto:alexander.haering@oertli-instruments.com)
